Impact of US Election on US Equity Indices

Date: 26 Oct 2020

Time: 7:00pm to 8:00pm (GMT +8)

[REGISTER NOW](#)

Speaker : Daniel Ang

Key Takeaways:

- The Most Bipartisan Election in US History
- The Risk of Contestation and Civil Unrest
- Long-Term and Immediate Impact Outlook
- How to use CME Micro E-mini Index Futures contracts

For more than three decades beginning in 1985, Daniel has been and is still active in the trading of financial derivative instruments from futures, options, FX, CFDs, and of late, cryptocurrencies. From 1985 to 2009, he was active in the brokerage side of the business and since 2007, besides being a trader, Daniel is also a much sought-after coach and speaker in the Asia-Pacific region covering macro-economic and global market outlook.

Daniel Ang is also active in the fintech space and had acted as an advisor to a pair of start-ups in Russia and South Korea. He is an executive director and advisor of a Singaporean based proprietary trading firm specializing in spread arbitrage. He is also an authorized speaker of the Chicago Mercantile Exchange (CME) education team.
